About SETM-2020

SETM-2020 aims to bring together national researchers, including scientists and students to share the latest results of their research work in the fields of engineering, science and technology. SETM-2020 offers oral and poster presentations for the participants to share their research results. The conference is being organized by the Association of Mechanical Engineering, Future Institute of Engineering and Technology, Bareilly, India on April 11-12, 2020.

The conference provides real presentation platform for researchers to share scientific research results and new trends. The papers and reports are published in the proceedings with ISBN number. Eminent scientists from various countries will deliver their keynote speeches on the latest research trends in their respective fields.

Selected papers will be recommended for inclusion in the special issues of the journals. The papers will be published in the proceedings with ISBN number. Eminent scientists from various countries will deliver their keynote speeches on the latest research trends in their respective fields.
